

CONSTRUCTION AUGER TOOLS

Belltec offers the most comprehensive line of auger bits on the market to maximize your drilling performance in any condition. Each Belltec auger has high-grade components that add quality and value, such as a premium AS00 structural steel center shaft, top-to-bottom heavy-duty flighting, and consumables made with heat-treated alloy steel.

OWN THE JOBSITE. OPTIONS FOR ALL GROUND CONDITIONS.

DCA SERIES | DIRT BIT - EASY GROUND

DCA-Series Augers are a cost-effective solution for drilling in displaceable soils like sand, silt, or clay. DCA augers feature a hardened cast boring to withstand the demands of repeated use.

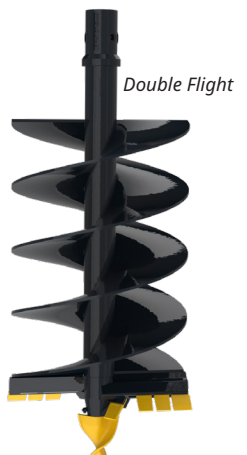

- Bolt-on tooth design for a secure fit
- Available in diameters from 6-in to 36-in
- Available in 48-in or 54-in overall lengths
- Available in semi-double or double flight designs
- 5/16-in flighting and a 3.5-in diameter pilot

SDA SERIES | DIRT BIT - MODERATE GROUND

SDA-Series Augers deliver dependable performance where it counts. Built for drilling in displaceable soils and fractured rock, they feature a boring head with compound angles and robust 4.5-inch pilot engineered for lasting operation.

- Cast head and compound attack angles and drive-in teeth
- Diameters from 4.5-in to 36-in
- Available in 48-in or 54-in overall lengths
- Available in single or double flight
- 5/16-in flighting and a 4.5-in diameter pilot

BHD SERIES | DIRT BIT - DIFFICULT GROUND

BHD-Series Augers free you to focus on the big picture. The 4.5-in pilot and patented, severe-duty boring head minimize hang-ups in the hardest displaceable soils by powering through gravel, cobble, or fractured rock.

- Heavy duty cast head with aggressive attack angle and bolt-on teeth
- Diameters from 6-in to 48-in
- Available in 48-in or 54-in overall lengths
- Available in single or double flight designs
- Built with 5/16-in flighting

BULLET SERIES | ROCK BIT - FRACTURED ROCK

Bullet Series Augers are specialized at cutting through tough cobble, boulders, fractured, or solid rock. The advanced, rock-crushing boring head design utilizes C1HD Plus Bullet Teeth arranged at optimal cutting angles.

- Reinforced 3/4" thick cast head with C1HD carbide teeth
- Diameters from 4.5-in to 36-in - 48-in overall length
- Convenient wear indicator strips on boring head
- Available in single or double flight designs
- Built with 5/16-in flighting and a 5-in diameter pilot

SPIRAL SERIES | ROCK BIT - SOLID ROCK

Spiral Series Augers will increase your productivity when you face hard ground. Its earth-grinding conical design and aggressive arrangement of C1 HD Plus™ Bullet Teeth will pulverize concrete, fracturable, and solid rock.

- Ultra-performance, hand-laid boring head
- Continuous Stooddy 121-G hardfacing
- Continuous 5/8-in thick flighting
- Options available in diameters from 9 to 36 inches
- Built with 5-in diameter pilot

SPECIALTY SERIES | TREE & PUFF BITS

Tree and Shrub Augers - A variant of DCA-Series Augers, Belltec Tree and Shrub Augers are a cost-effective solution for mechanically digging holes to plant trees or shrubs. Options are available in diameters from 18 to 48 inches.

Belltec Puff Augers - Belltec Puff Augers are specially designed to bore holes into hard ground for installing T-posts. Belltec Puff Augers feature a 1-5/8 inch solid steel shaft and a replaceable 2-in carbide head that efficiently cuts through hard dirt and rock.

Custom Auger Solutions - For custom auger designs, call 1-800-242-941 or email sales@belltec.net to contact a Belltec representative.

Proudly located in Belton, Texas, Belltec Industries has been designing, patenting, and producing innovative construction attachments for the mobile construction and off-highway equipment industry for over thirty years. We pride ourselves on offering products and solutions that will exceed our customers' expectations. We do more than build groundbreaking products; we provide results that ensure our customers get the job done.
